Sorry for the

confusion. Here is the corrected spreadsheet.

Ex. 5 Deliberative Process (DP)

I am trying to wrap my head around these calculations. I'm meeting with a friend that is a regional risk assessor tomorrow, and plan to pick her brain on the usual calculations she does for dermal exposure. I'll see if she has other concerns about the new BaP values as well.

Subject: spreadsheet update

Hi Kathleen – I made a couple of small changes to the draft spreadsheet that is used for the BaP exposure example. The changes are on the tab marked Dermal with ADAFs.
